EXECUTIVE SUMMARY

Skilled in full stack web development with practical experience building React-based frontends and Node.js/Express backends, I bring strong problem-solving abilities and real-world internship exposure. The role requires proficiency in MERN stack technologies, UI/UX design thinking, and collaborative delivery — all of which align with my internship work at RockSouq and CodSoft. As a final-year BCA student specialising in Multimedia & Animation, I combine technical depth with creative sensibility and am confident in contributing effectively from day one.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Java, Python (basics)
- **Frontend:** HTML5, CSS3, React.js, Responsive Design, CSS Animations
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, Mongoose
- **UI / Design:** Figma, Wireframing, Prototyping
- **Tools & Platforms:** Git, GitHub, VSCode, Blender, Grease Pencil

SOFT SKILLS

- Communication & Teamwork
- Problem Solving & Analytical Thinking
- Time Management & Adaptability
- Self-Directed Learning
- Multilingual: English (Professional), Tamil (Native), Arabic (Basic)

PROFESSIONAL EXPERIENCE

RockSouq — Dubai, UAE (Remote)

Jan 2024 – Present

Role: Web Development Intern

Responsibilities:

- Developed and maintained frontend components for an e-commerce platform serving the UAE market.
- Built product listing pages, promotional landing pages, and content-driven ad pages using HTML5, CSS3, and JavaScript.
- Translated Figma design mockups into pixel-accurate, responsive, production-ready web pages.
- Contributed to a 100-video ad content pipeline for two charging products listed on Amazon UAE.
- Optimised page load performance by refactoring asset delivery and restructuring component hierarchy.
- Collaborated with cross-functional team members across design, content, and marketing.

- Ensured cross-browser and cross-device compatibility for all delivered pages.
- Participated in code review cycles and incorporated feedback from senior developers.

Impact:

- Delivered 10+ production-ready landing and product pages within internship period.
- Contributed to a 100-video ad campaign pipeline improving Amazon UAE product visibility.
- Reduced average page render time by optimising asset loading strategies.

CodSoft — India (Remote)

Jun 2024 – Aug 2024

Role: Web Development Intern

Responsibilities:

- Completed structured front-end development tasks involving HTML, CSS, and JavaScript.
- Built responsive UI components and static web pages as part of assigned internship modules.
- Produced reusable Word document templates with dynamic placeholder fields for HR workflows.
- Followed agile-style sprint planning and task tracking throughout the internship.
- Participated in team meetings, code walkthroughs, and peer reviews.
- Documented work and submitted structured internship deliverables on schedule.

Impact:

- Successfully completed all assigned modules and earned internship certification.
- Delivered reusable HR document templates reducing document creation time for the team.
- Gained practical exposure to professional coding standards and review workflows.

EDUCATION

Bachelor of Computer Applications (BCA)

2025

Specialisation: Multimedia & Animation

Hindustan Institute of Technology and Science (HITS), Chennai

AWARDS & ACCOMPLISHMENTS

-
- RockSouq Internship Completion — Web Development, 2024
 - CodSoft Internship Completion Certificate — Web Development, 2024
 - Competitive Gamer — Tournament & Scrim Winner (Esports)
 - Badminton Player — Inter-tournament participant
 - Self-directed MERN Stack Learning Roadmap: JavaScript → React → Node/Express → MongoDB (Ongoing)
